

- Aether is a product that disinfects and sterilizes the environment.
- Causes no hazard to humans and the environment.
- Product solution breaks off into oxygen.

- Purespace is an innovative product that disinfects and sterilizes the environment
- Odorless and hypo allergic products. Causes no hazard to humans and the environment
- Product solution breaks off into oxygen
- Full range of activity bactericide, virucide, fungicide and sporicide.
- Even disinfection of air and surfaces: 100% of the environment is disinfected.
- The natural properties of the product which resemble the natural gas disinfect the whole area including electronic parts without corroding or oxidizing.
- Improves the quality of clients' stay. Better living conditions in a healthy environment.
- Reduces the risk of bad reputation.
- No extra cost for other disinfection products.

INNOVATION	EFFICACY	RAPIDITY	SIMPLICITY
Our concept is based on the distribution of a dry disinfectant mist. Thanks to its particles of 5μ, the solution reaches evenly all surfaces.	Provides integrated disinfection by reducing pathogen load 99.9% of the sterilized area. Efficient at every treatment. Germs are self destroyed.	Effective even if using low dosage (1 ml / 1 m ³). Standard effectiveness at every application. Maintain a consistent effectiveness at every application.	Very easy to use. Designed to be compact, lightweight and easy to transport. No intervention is needed during the application.

PURESPACE® in SPA & FITNESS CENTERS

Anti-Allergic & Anti-Bacterial Spaces

Clean & Healthy

Purespace is the ideal disinfected solution for:

- Humid environments without adding humidity.
- Elimination of odors associated with sweat, fungi and molds.

environmentally friendly

*Advanced & innovative technology for real progress in **DISINFECTION***

A unique opportunity to classify your Spa & Fitness area as "Anti-Allergic and Anti-Bacterial space"

A strong marketing advantage to differentiate your Spa & Fitness Center from the competition!

**PureSpace®
ADVANCED DISINFECTION**

- A unique combination of patented technologies with repeated results which combine simplicity, rapidity and efficacy preventing any resistance of the germs.
- The indoor spaces of Spas and Fitness centers are ideal spots for an epidemic rash.
- Regular preventive application at spaces with high level risk of contamination.
- Remedial function in case of acknowledged contagion. Disinfection of high medical degree.
- Absolute dry mist: No humidity residues.
- Sanitizes the air and anything else in the environment: not only the flat surfaces but also furniture like: fitness equipment, carpets, massage beds, sauna cabins, Jacuzzi rooms, treatment rooms, changing rooms, showers, lockers, etc.
- No furniture wear from chemical detergents. Increase longevity of equipment.

*A unique experience for your customers
Become PureSpace®*

**PureSpace®
VERSATILE TECHNOLOGY**

- A different refill solution is used to eliminate odors, insects, mites or bed bugs.
- Very low cost of purchase: 1L solution can disinfect 1.000m³.
- Quick installation in 30 seconds, automatic application without preparation.
- Customized application of inner spaces from 15m³ to 40.000 m³.
- Application efficacy does not depend on the operator; the results are consistent.
- Simplicity: machine weight 5kg, one start button, no preparation, no residues.
